FALL 2013 UPDATE TO THE 2013/2014 BUDGET

Comments/Explanations of Variance:

City of Spruce Grove is experiencing tremendous growth , particularly in the age 0-4 category. New affordable housing developments in Spruce Grove and Stony Plain. Ecole Broxton Park (Spruce Grove) had unanticipated growth of 59 students and Stony Plain Central in Stony Plain had an additional 17 students.

Enrolment increase in ECS (Total 127, 15.82%)

Community A - West End Schools 20 (Total 20)

Community B - Stony Plain and Surrounding (Total 26)

Community C - Spruce Grove and Surrounding - (Total 81)

EXECUTIVE SUMMARY

Parkland School Division No. 70 has a total budget of \$114.5 million and provides public education services to the citizens of Parkland County, Town of Stony Plain and the City of Spruce Grove. The division serves the educational needs of approximately 10,000 students from Kindergarten to Grade twelve within twenty five urban and rural instructional sites.

The executive summary presents highlights of the budget and organizational information of the school division.

Governance

The Board of Trustees takes very seriously its stewardship role in representing Parkland students and communities. While the Board recognizes that the education system has seen significant changes over the past decade with the rapid pace of new technology, use of the internet, and proliferation of social media, it also acknowledges that the core priorities that drive excellence in education have remained unchanged. The Board's primary responsibilities involve Trustees in setting directions, allocating resources, monitoring and reporting student and organizational progress and achievements. The Board of Trustees is committed to transparent and collaborative efforts to achieve its priorities. The budget allocates resources available to achieve the vision through priorities which address the learning needs and achievement outcomes.

Distributed Decision Making

Parkland allocates its revenues in accordance with the following beliefs and guiding principles:

Distributed Decision Making Beliefs:

- ✓ *The distribution of decision-making responsibility will create, and draw upon, leadership capacity within our organization.*
- ✓ *The Division's staff has the capability to make decisions about activities within the realms of its responsibility.*
- ✓ *Individuals who have critical knowledge and expertise about a certain activity are best suited to make the necessary decisions on how to achieve the goal and objectives for that activity.*
- ✓ *Decision-making responsibility must be supported by equitable resource allocation.*
- ✓ *Equity is established through a process of collaboration and consensus building.*
- ✓ *Information sharing about external or internal conditions affecting an organization is important.*

Distributed Decision Making Principles:

- ✓ *Those who are closest to the activity will have the major influence in decision-making surrounding that activity. The Division's staff has the capability to make decisions about activities within the realms of its responsibility.*
- ✓ *Informed decisions will be made with attention to balancing choice, responsibility, and accountability, while maintaining alignment with the organization's mission, vision and principles.*
- ✓ *Individuals will accept responsibility for their decisions.*
- ✓ *Decision makers will endeavor to take into account the full scope of impact of their decisions, and will collaborate with those who may be affected by such decisions.*
- ✓ *Information will be shared as freely as possible throughout the organization.*

Board Priorities

Students will be encouraged to explore, create, imagine, and engage in lifelong learning as they develop their skills/competencies to prepare to enter the world of post-secondary studies or work. The division believes that student success is closely linked to student well-being and the development of social-emotional assets that build resiliency and is therefore committed to the development of the whole child at all levels of their education. The priorities that will guide the work of the division have been affirmed by a variety of stakeholders including parents, students, community representatives, staff, including administrators and teachers. The priority areas include:

- ✓ *Engage our Students*
- ✓ *Engage our Staff*
- ✓ *Engage our Community*
- ✓ *Stewardship of our Resources*

PRIORITIES	Engage our Students	Engage our Staff	Engage our Community	Stewardship of our Resources
	<i>Every student will be successful</i>	<i>All staff are learners with a focus on student success</i>	<i>Everyone can make a meaningful contribution to public education</i>	<i>The Division effectively manages its resources to support student learning</i>
	Meaningful assessment and reporting	Inclusion	Open and honest communication	System Review
	Student mental and physical well-being	Innovative instructional practices	Meaningful engagement with all stakeholders to support student learning	Distributed decision-making model
	Student choice and personalized learning	Leadership development	Collaborative partnerships with business and community	Fiscal responsibility

Student Achievement

Parkland School Division No. 70 staff has put significant effort and resources into enhancing student achievement. In the majority of subject areas, students achieved at or above the provincial average for the Acceptable Standards in the Provincial Achievements Tests and Diploma Exams. Student success can be attributed to the students who have worked hard to achieve these results, their parents who provide the guidance and encouragement, and the staff in the schools that put in a great effort to ensure each student has the opportunity to succeed. Division and school staff analyze the results to develop improvement plans to further enhance student achievement in future years. The division utilizes the data in setting priorities, establishing goals, strategies and performance measures to ensure that success for all students is obtained. The budget allocates resources to assist in achieving this end.

Children with Diverse Learning Needs

The Alberta Education initiative, *Inspiring Action on Education*, describes an inclusive education environment where all students are welcomed, supported, and successful. Parkland School Division strives to provide inclusive learning environments where each student feels he belongs and is supported in his efforts to be successful in his learning through a variety of supports and services available within his school community. In addition to regular educational programs, the division also provides access to quality specialized programs aimed at meeting the unique and individual needs of students whose learning needs require supports and services beyond what the regular classroom can effectively provide. One strategic direction that supports both the provincial vision and the division's mission is to implement school-based learning coaches who provide support to teachers to strengthen inclusive instructional practices.

Budget Process

The Budget was developed using information on funding and expenditure assumptions. Revenues are allocated in accordance with the Distributed Decision Making beliefs and guiding principles. Under this structure, schools agree on an allocation model and distribute resources according to the priority areas they have identified. Assumptions used to prepare the budget are shown on Schedule A. The budget was sent out to site administrators for completion, review and compilation. Budget assumptions were approved at the 07 May 2013 Regular Board meeting. The preliminary budget was presented to the Board for approval at the 29 May 2013 Regular Board meeting and the final budget was presented at the 05 November 2013 Regular Board meeting. Once approved, it is submitted to Alberta Education as required under legislation.

Enrolment

Parkland School Division No. 70 is expected to have 10,200 students enrolled in Kindergarten through Grade twelve in the 2013-2014 school year which is an increase of 361 students over the previous year. Estimated enrolment at September 30, 2013 and comparative figures for the past four years are shown on Schedule B

Class Sizes

Parkland School Division No. 70 continues to invest resources in classroom teaching staff to support student success. Parkland School Division anticipates meeting targets in all grade levels. Expected class sizes and comparative figures for the past two years are shown on Schedule C.

Funding Sources

Parkland School Division No. 70 is financially dependent on funding from the Province of Alberta and receives 95% of its funding from government sources. The division has control over other revenues such as school fees, school generated funds, outside grants and investment revenues which comprise only 5% of the total revenue.

Total budgeted revenues for 2013-2014 are \$112.6 million. Total revenues for the division decreased by 0.94% over 2012-2013.

The 2013-2014 budget accommodates a provision for an increase in general student enrolment, however base instruction grant rates remain at 2012-2013 levels. To encourage small class sizes for early learners, class size grants increased by 2%. There is a reduction of the Credit Enrolment Unit (CEU) funding for High School work experience and special projects as well as a reduction in CEU funding for Alberta Distance Learning courses. Base Funding represents 59% of the division's provincial funding and is determined by the number of students enrolled as of September 30th of each school year.

The Inclusive Education Grant rate increased by 2%. This grant helps provide appropriate supports for inclusive practice in schools that meets a broader suite of student needs. Parkland School Division received an additional \$227K

Funding for the Alberta Initiative for School Improvement (AISI) and the Learning Resources Distribution Centre (LRDC) grants have been discontinued resulting in a reduction of \$750K

The Equity of Opportunity Grant was introduced in 2012-2013 to support equitable access to education programs for students. Changes to the grant formula outlined in Budget 2013 result in an estimated a decrease of \$500K for 2013-2014.

Changes to the Plant Operations and Maintenance funding formula along with a reduction in Infrastructure Maintenance and Renewal (IMR) grants have a further negative impact on our school facilities of \$431K.

The Fuel Price Contingency Program, which provides additional funding whenever fuel prices exceed \$0.60/litre has been discontinued resulting in a reduction of transportation funding of \$571K.

To minimize the impact on the classrooms, the Board and System Administration spending cap has been reduced by 10% from 4.0% to 3.6%. To facilitate this adjustment, Alberta Education will reduce revenue by \$451K.

Spending by Program

Funding is allocated to division programs and services to ensure that programs meet the needs of students and schools remain viable. The \$112.6 million of funding resources are allocated to five major program areas. The five major programs include Instruction, Plant Operations and Maintenance, Transportation, Administration and Capital and Debt Services.

Instruction is the allocation to all schools (early, middle and high) and other instructional programs and services offered to provide educational opportunities to students within the school division.

Some of the other instructional programs include Early Education, Special Education and Outreach Programs. Instructional services provided centrally are included in the Instruction program.

The Plant Operations and Maintenance activities relate to the division's responsibility for the construction, operation, maintenance, safety and security of all school buildings

The Transportation program relates to all activities of transporting students to, from and between schools. Funding is provided to transport students who live 2.4 kilometers or greater away from their resident school.

Administration includes Board Governance, Office of the Superintendent and Deputy Superintendent, Business and Finance, Human Resources, and System Instructional Support.

Capital and Debt Services includes the provision of funding for supported debenture debt payments from the Province of Alberta, the amortization of capital assets and Infrastructure Maintenance Renewal program (IMR).

Expenditures by Category

Parkland School Division No. 70 will spend approximately \$84.4 million on human resources, which is about 73.7% of the division's budget.

Collective agreements for the 2013-2014 school year for our two support staff unions expire August 31, 2015. The province has legislated a four year modified Framework Agreement expiring August 31, 2016 that addresses compensation and workload for all teachers. Benefit provider costs for teachers are expected to decrease by 2.0% and we anticipate support staff benefit provider costs to increase minimally. Pension costs for teachers are fully funded by the Provincial Government while pension costs for support staff are estimated to go up 8.0%.

Financial Impact

As a result of expenditure growth out pacing revenue, it has been necessary to utilize Accumulated Operating Reserves to match expenditure decisions to the resources available. The division is expecting Accumulated Operating Reserves of \$3.8 million as at August 31, 2013. In the 2013-2014 budget, we anticipate Operating Reserves in the amount of \$1.9 million will be used to provide additional funding to offset projected deficits. The balance at the end of August 31, 2014 for Operating Reserves is estimated at \$2.0 million.

Financial Forecast

We are faced with managing a difficult fiscal situation while protecting the educational programs and services and putting the best interest of students ahead of other desires. While the government announcements are challenging, Parkland School Division is hopeful that the framework agreement will provide certainty to teacher salaries and allow us to work collaboratively with our partners on the initiatives of transformational change. As the cost of supplies, salaries, benefits and contracted services increase, spending will be adjusted to ensure that expenditures do not exceed forecasted revenues. When resources are limited, the priority is to ensure that the needs of classrooms are met. This often involves the reduction of supplies and contracted services or a review of the effectiveness and efficiency of program and service delivery. This work is ongoing as our Administrative and Educational leaders identify what activities have the most value, should not be done and should be done better.

The Superintendent is dedicated to ensuring that positive relationships are the basis of our important work. Effective communication and open, transparent systems will be the norm as we move forward in some very exciting times in Parkland School Division.

As communities mature and change, we are experiencing different demands for student spaces in our schools. The Board is committed in its efforts to hear from the community. Trustees continue to increase their connection with stakeholders and commit to ensuring greater public engagement. In 2010-2011, the Board undertook a comprehensive System Review to develop a long term planning framework that would address the changing demographics across the division and create a balance between facility capacity and enrolments. This work is ongoing and resources have been established in the 2013-2014 budget to continue with the System Review.

The division continues to work to build the capacity of classroom teachers and school-based administrators to provide quality educational support and/or programming supports for students with diverse learning needs within a public school learning environment. Resources have been included in the budget to support learning coaches.

Our entire Facilities department is collaborating on the most efficient and effective ways to use resources. Maintenance projects are scheduled in advance and staff is appropriately deployed for efficient and timely completion. While this strategy has helped minimize the impact of the budget reductions, an additional \$111 K is required to balance the operations and maintenance program. The 2013-2014 Budget does not include the annual provision to establish reserves of \$50K to replenish capital equipment and \$61 K for replacement of maintenance vehicles.

School jurisdictions across the province are faced with large insurance premium increases to property due to devastating losses in water, mold and asbestos to which were added, catastrophic losses over this past summer in southern Alberta. Over \$51M in losses have been paid out to School Boards that are members of the Alberta School Board Insurance Exchange (ASBIE) insurance program. As a result, Parkland School Division is expecting an increase in property insurance premiums amounting to \$216K (38.94%).

The reduction in funding in the Infrastructure and Maintenance Renewal program will have a direct impact on the amount of projects being completed.

The elimination of the Fuel Price Contingency by the Government of Alberta had an immediate impact on Parkland School Division. In order to maintain existing student busing service levels, the introduction of a \$45 transportation surcharge for every transported student was made necessary to recover costs.

The division will need to monitor Accumulated Operating Reserves in future operating budgets to ensure that it maintains an appropriate balance between meeting the needs of students and the financial health of the district. The amount of reserves will be dependent on future financial resources and expenditure decisions made by the division.

A summary of Parkland School Division No. 70 budgeted revenues, expenditures and operating reserves is shown on Schedule D.

Human Resources

Division staffing has the greatest impact on the educational opportunities provided to students within Parkland School Division No. 70 and consequently makes up 73.7% of the division's budget. Total salaries and benefits for the division increased by 1.6% over 2012-2013.

The division will employ 554.82 full time equivalent teachers and 369.15 full time equivalent support staff in 2013-2014. 2013-2014 will see an overall increase of 18.95 teaching staff and an overall decrease of 2.50 support staff. Our education assistants will see a reduction of .84, while other school based positions decrease by 4.9. There is an increase of 2.0 in maintenance staff, .44 in custodial staff as well as a provision to hire .8 in information technology staff.

Capital Plan

All new school facilities are funded from the Province of Alberta through Alberta Education in consultation with the Department of Infrastructure. Each year, school jurisdictions submit facility needs for the next three years and await funding and approval from the province.

Approval for the Memorial Composite High School site demolition was given in September 2011 and is managed by Alberta Infrastructure. Due to higher costs associated with the demolition's hazardous material assessment, the division was advised by the Government of Alberta that the project was on hold as it was short \$1.25 M. With additional funding not available, the Board of Trustees approved the allocation of \$1.25 M from capital reserves so that the project could proceed with an expected completion date for the fall of 2013.

In response to the data collected and stakeholder input from the System Review, the Board has approved a Capital Plan submission for the construction of a new K-9 school in Spruce Grove and a second new K-9 school in Spruce Grove/Stony Plain as well as a complete preservation and modernization of Woodhaven Middle School and Stony Plain Central School.

On May 2, 2013, Premier Redford announced a new K-9 school for the City of Spruce Grove. The division has worked very closely with Alberta Education and our partners with the City of Spruce Grove over the past number of years to define the immediate need for a new K-9 school in Spruce Grove. We are excited to explore the possibilities of what an innovative new K-9 school can look like as we work collaboratively with our community partners in the months and years ahead.

Parkland School Division's first priority for new modulars was based solely on the continued growth in the City of Spruce Grove and the Town of Stony Plain. The division submitted a request to Alberta Education for a total of ten new modulars to be located at Millgrove, Brookwood and High Park Schools and received approval for seven new modular classrooms on April 3, 2013. The addition of seven new modulars will have a significant financial implication on the division as we were asked by Alberta Education to use our capital reserve funds to cover one half the cost of transportation, utility and set-up costs.

With the five modular classrooms for Spruce Grove schools for the 2013-2014 school year along with the announcement of a new K-9 school, the division is much better equipped to manage the enrolment growth pressures for the foreseeable future.

The Capital Plan for 2014-2017 is referenced for information purposes only, and does not form part of Parkland School Division No. 70's operating budget.

Schedule A
Parkland School Division No. 70
2013-2014 Final Budget
Budget Assumptions – Updated November 5, 2013

The following table outlines the assumptions used in developing the 2013-2014 operating budget, the basis for the assumption and the risk associated if the assumption is not correct or other factors influence the original assumption made.

Budget Area	Assumption	Basis for Assumption	Associated Budget Risk
Enrolment	<p>Overall enrolment increase of 361 students (3.67%) (see enrolment summary) broken out as follows:</p> <p>Community A: 4 (0.51%) Community B: 37 (0.90%) Community C: 262 (5.61%) Outreach : 58 (20.14%)</p>	<p>Review of students is prepared by each school Principal using the principles of “Cohort Survival” and known information. Students automatically move by grade to the next grade in the upcoming year. ECS numbers are estimated based on current registrations and historical information.</p>	<p>Risk of not achieving estimated enrolments will result in decreased revenues and adjustments will need to be made to programming and staffing or risk budget deficit. Risk is low, as there is a trend to have more students on September 30th than projected in the previous spring.</p>
FTE Enrolment	<p>FTE enrolment is based on estimating the number of CEU’s earned at high school. FTE enrolment is projected to decrease by 111.9 FTE or 4.49% (See Enrolment Summary).</p>	<p>Average CEU per student is calculated by reviewing average CEU’s earned over a three year period, student transfers from feeder schools and assessing a reasonable amount using known information.</p>	<p>If average CEU’s are below the estimate, there will be less revenue for the district and for the high schools. If CEU’s are higher than average, then there may be a disproportionate amount of revenue being retained by the high schools rather than being allocated under the budget allocation model.</p>
Grant Revenues	<p>Base rates remain at 12/13 levels. Class size rates increase by 2.0%. Inclusive Education rates increase by 2%. Elimination of AISI and Fuel Price Contingency Grants. Reductions in Administration, O&M, IMR and Equity of Opportunity grants.</p>	<p>The Provincial Grant rates are known and allocated to school jurisdictions to support approved education programs for students in ECS to Grade 12. Revenues are calculated using the applicable formulas, rates, and criteria from Alberta Education’s Funding Manual for School Authorities.</p>	<p>As the total Provincial grant revenues are known there is no associated risk after passing the budget on this item.</p>

Schedule A
Parkland School Division No. 70
2013-2014 Final Budget
Budget Assumptions – Updated November 5, 2013

Budget Area	Assumption	Basis for Assumption	Associated Budget Risk
Teacher Salary Costs	<p>Alberta Teachers Association ATA = 0.0%</p> <p>Average teacher salary cost: \$88,612</p> <p>Average teacher salary and benefits cost: \$99,405</p> <p>Grid movement cost: \$1,538</p>	<p>Collective agreements for ATA expire August 31, 2016.</p> <p>Site administrators enter each staff member into the budget by position. Average salaries are used for all teaching positions, Principal and administrative positions include negotiated allowances as per the collective agreement</p>	<p>Risk that teacher salaries will be higher than the Average teacher salary included in the budget.</p> <p>Salary Estimates are revised September 30, if required.</p>
Support Staff Salaries	<p>CAAMSE = 0.0%</p> <p>IUOE = 2.0%</p> <p>NUG = TBA</p>	<p>Collective agreements for CAAMSE and IUOE expire August 31, 2015.</p>	<p>No risk that IUOE wage rate will be higher than negotiated.</p> <p>No risk that CAAMSE wage will be higher than negotiated.</p>
Negotiated Benefits	<p>ATA Employer Contribution 90%</p> <p>CAAMSE, IUOE, NUG Employer Contribution 85%</p>	<p>Known as negotiated.</p>	<p>No risk.</p>

Schedule A
Parkland School Division No. 70
2013-2014 Final Budget
Budget Assumptions – Updated November 5, 2013

Budget Area	Assumption	Basis for Assumption	Associated Budget Risk
Benefit Provider Rates - Teachers	ASEBP – The overall premium rates are estimated to decrease on average by over 2%. EI rates to increase by 6% CPP rates to increase by 2%	As per March 2013 ASEBP Trustee Report	Risk that Parkland School Division could move into increased surcharge on Life and EDB or move into surcharge on EHC, Dental, or vision, which would increase costs. Risk is low as this is based on preliminary information from ASEBP.
Benefit Provider Rates - Support Staff	Local Authorities Pension Plan contribution rate increase estimated at 8.0% effective January 1, 2014. Sunlife – The overall premium rate increase for 2014 is expected to be minimal.	LAPP Trustees review the actuarial valuations of the plan as and assess rates accordingly.	Risk, if LAPP Board decides to implement mid-year increase, January 1, 2014. Risk that rates are higher than estimated as the aging employee population continues to put pressure on the Life and LTD claims as well there health and dental claim utilization increases.
Human Resources	Change in Staff – Full Time Equivalent (FTE) Certificated Staff = 18.95 FTE Support Staff = -2.50 FTE Total = -16.45 FTE	Site administrators enter each staff member into the budget by position. Staffing decisions are made according to availability of resources and delivery of educational programming and services.	Risk is low, as there is a trend to have more students on September 30 th than projected in the previous spring. There may be an increase in risk if the number of students with diverse learning needs rises.

Schedule A
Parkland School Division No. 70
2013-2014 Final Budget
Budget Assumptions – Updated November 5, 2013

Budget Area	Assumption	Basis for Assumption	Associated Budget Risk
Services and Supplies Costs	It is assumed that Goods and Services Costs will not increase materially, except for the price of textbooks due to the reduction in the Learning Resource Credit. Property insurance has increase by 38.9% for property and 10% for liability while costs of building maintenance will remain unchanged.	The increase in the Statistics Canada CPI for Alberta at February 2013 is 0.9%. Site administrators enter expenditures into site budgets based on programming and support initiatives.	Risk is low as rates for insurance have been determined.
Operating Reserves	It is assumed that Operating Reserves of \$1.9 M will be used to balance the Budget resulting in an estimated A.O.S. to expense ratio of 2.58%	Site managers have drawn down accumulated operating reserves to offset projected deficits for the current period.	Risk is low. The use of accumulated operating reserves to support ongoing expenditures is a short term solution. The accumulated operating reserve balances are approaching the recommended minimum level of 2.5%.
