

PSD COMMUNITY THOUGHT EXCHANGE 2022

Parkland School Division 70

Q1 What are some things you appreciate and some concerns you have about Parkland School Division this year? (Note: you can hit the three purple dots and skip a thought in the 'Star' phase if a thought doesn't apply to you.)

Staff stepping up in the schools doing the very best they can for students and families
students need to know how to be connected learners and caring citizens. They need to know that they have access to a safe space.

Concerned that while teachers show up to their classrooms, why does CFE /trustees not show up to show the students / staff support in their building Concerned that students don't know who is beyond the school walls. Why is there a principal, a trustee or superintendent?

Appreciate lengths staff go to trying to keep kids safe. COVID-19 is rampant right now. Division has to make own rules - which don't go far enough.

Technology Services - resolution on tickets can be slow or sometimes closed without resolution. Understaffed. Sometimes impacts ability to do my job.

Reporting of confirmed COVID cases should still be done to parents in that classroom as well as all staff who are in contact with that student. Increase awareness and earlier intervention for other cases.

Masks must be required for those who are able to wear them We need to support our teacher and our vulnerable students. Go check how many kids are in hospital now. In Alberta.

Teachers must enforce mask compliance It is the law. It is scientifically the best thing to do. It teaches empathy, compassion and respect for others

Excuse of "mental health worsened by masking" invalid especially in younger grades. Masks should be viewed as essential. After 27 years as an EA I know kids much more resilient and adaptable than given credit for. No mask just scary

My gd 1 granddaughter has just tested + for COVID. Preventable if things done right from beginning. I blame mostly prov. Govt. but partly Division. Self-explanatory. Fear of long COVID for an extremely bright child + brother too young to be vaxxed.
