

MEMORANDUM

September 12, 2023
Regular Board Meeting

TO	Board of Trustees
FROM	Shauna Boyce, Superintendent
ORIGINATOR	Scott Johnston, Associate Superintendent
RESOURCE	Linda Madge-Arkininstall, Division Principal, Literacy and Lifelong Learning Shaye Patras, Division Principal, Numeracy and Achievement
GOVERNANCE POLICY	Board Policy 1: Division Foundational Statements Board Policy 2: Role of the Board Board Policy 12: Role of the Superintendent BP 18: Role of the Student
ADDITIONAL REFERENCE	Administrative Procedure 280 – Off-Site Activities <i>Education Act: 16, 18, 33, 196-197, 222</i>
SUBJECT	OFF-SITE ACTIVITIES REPORT

PURPOSE

For information. No recommendation required.

BACKGROUND

The Board of Trustees upholds the Division's vision, mission, values and priorities for student education. The attached report is in support of these assurances.

REPORT SUMMARY

This *Report* provides a summary of student off-site activities that schools provided during the 2022-2023 school year. Off-site activities in Parkland School Division adhere to Administrative Procedure 280 – Off-Site Activities. Division staff ensure that the safe learning environment that exists within the school shall also extend to off-site experiences, and that care shall be taken to ensure that off-site activities are organized to maximize educational benefit and protect the safety and well-being of students.

This Report contains summative information with respect to off-site destinations. The report captures the destination, number of visits, and number of student visitors.

Administration would be pleased to respond to any questions.

SJ:kz

OFF-SITE ACTIVITIES REPORT

September, 2023

Presented to the Board of Trustees, September 12, 2023

Scott Johnston, Associate Superintendent, Education and System Services

Resources: Linda Madge-Arkininstall, Division Principal, Literacy and Lifelong Learning

Shaye Patras, Division Principal, Numeracy and Achievement

Parkland School Division: Where the World Opens (Back) Up

Throughout the 2022-2023 school year, our schools continued to seek out meaningful experiences – both in-school and off-campus.

We embraced a renewed sense of optimism, and looked forward to any, and every, opportunity to attend to our Mission:

We assure supportive learning environments, meaningful experiences and healthy relationships that create opportunities to develop resilience, to gain diversity in perspectives and to achieve enduring success.

We journeyed, continuously, toward our Vision:

Our students possess the confidence, resilience, insight and skills required to thrive in, and positively impact, the world.

The impact of off-site-activities – alternative learning approaches – for students may last a lifetime.

Throughout the 2022-2023 school year, our staff explored opportunities for our students to enjoy learning in the greater world, outside of the school walls. We found ways to enjoy our local community.

Where the World Opens Up

This Parkland School Division Board Report highlights the ways in which our school staff open up learning for our students. This report is largely summative, given the complexity of accurately capturing every outcome and classroom experience for each child.

While the report details the destination of many of our off-site activities, it is important to note that students receive a diverse array of experiences within the walls and grounds of the school. Consider, for instance, our students' appreciation for the *National Archery in Schools Program*.

In total, more than 39,000 unique student "experiences" occurred as off-site activities. A summative list of destinations, by grade and student count, follows. As we think back on our own experiences in school, on field trips and through activities, we remember the fun, we cherish the relationships, and we appreciate the learning that occurs when our world is opened up.

Looking Forward: In addition to the variety of off-site activities that schools are considering, both Memorial Composite High School and Spruce Grove Composite High School are currently planning international trips for the 2023-2024 school year. These exciting opportunities are in the initial stages of planning and so they are not detailed in this report.

Parkland School Division: Where the World Opens Up – Summative Off-site Information

Hyperlinks are provided for more information on the destinations of our off-site experiences.

For more information:

Parkland School Division's [Off-Site Activities Procedure](#) (280) provides the guiding operational regulations regarding off-site activity planning and risk mitigation. Notably, that offsite activities shall be safe, shall provide parents with proper information, and that every activity shall be adequately supervised.

Student safety remains the first consideration in planning, preparing and engaging in any off-site activity.
