

MEMORANDUM

PARKLAND SCHOOL DIVISION	September 10, 2024 Regular Board Meeting
то	Board of Trustees
FROM	Shauna Boyce, Superintendent
ORIGINATOR	Scott Johnston, Associate Superintendent
RESOURCE	Linda Madge-Arkinstall, Division Principal, Literacy and Lifelong Learning Shaye Patras, Division Principal, Numeracy and Achievement
GOVERNANCE POLICY	Board Policy 1: Division Foundational Statements Board Policy 2: Role of the Board Board Policy 12: Role of the Superintendent BP 18: Role of the Student
ADDITIONAL REFERENCE	Administrative Procedure 280 – Off-Site Activities Education Act: 16, 18, 33, 196-197, 222
SUBJECT	OFF-SITE ACTIVITIES - REPORT

PURPOSE

For information. No recommendation required.

BACKGROUND

The Board of Trustees upholds the Division's vision, mission, values and priorities for student education. The attached report is in support of these assurances.

REPORT SUMMARY

This *Off-Site Activities Report* provides a summary of student off-site activities that schools provided during the 2023-2024 school year and, as such, the report effectively demonstrates the PSD tagline: *Where the World Opens Up*. Off-site activities in Parkland School Division adhere to <u>Administrative Procedure 280 – Off-Site Activities</u>. Division staff ensure that the safe learning environment that exists within the school shall also extend to off-site experiences, and that care shall be taken to ensure that off-site activities are organized to maximize educational benefit and protect the safety and well-being of students.

This Report contains summative information with respect to off-site destinations. The report captures the destination, number of visits, and number of student visitors.

Administration would be pleased to respond to any questions.

OFF-SITE ACTIVITIES REPORT September, 2024

Presented to the Board of Trustees, September 10, 2024 Scott Johnston, Associate Superintendent, Education and System Services Resources: Linda Madge-Arkinstall, Division Principal, Literacy and Lifelong Learning Shaye Patras, Division Principal, Numeracy and Achievement

Parkland School Division: Where the World Opens Up

Learning is effectively supplemented by activities that occur off-campus, as well as in school. Throughout the 2023-2024 school year, our schools continued to seek out meaningful experiences, and attended to learning activities in support of the Parkland School Division mission:

We assure supportive learning environments, meaningful experiences and healthy relationships that create opportunities to develop resilience, to gain diversity in perspectives and to achieve enduring success.

The impact of off-site-activities, as alternative learning approaches for students, may last a lifetime. Throughout the 2023-2024 school year, our staff explored a significant number of opportunities for our students to enjoy learning in the greater world, outside of the school walls, within the local community, across the country, and throughout the wider world.

Where the World Opens Up

This Parkland School Division Off-Site Activities Board Report highlights the ways in which our school staff open up learning for our students. This report is largely summative, given the complexity of accurately capturing every outcome and classroom experience for each child.

While the report details the destination of many of our off-site activities, it is important to note that students receive a diverse array of experiences within the walls and grounds of the school. Consider, for instance, that many students enjoy the *National Archery in Schools Program* right at their own school.

In total, more than 37,000 unique student "experiences" occurred as off-site activities across more than 800 unique visits.

A summative list of destinations, by grade and student count, follows.

Hyperlinks are provided for more information on the destinations of our off-site experiences.

For more information:

Parkland School Division's <u>Off-Site Activities Procedure</u> (280) provides the guiding operational regulations regarding off-site activity planning and risk mitigation. Notably, that offsite activities shall be safe, shall provide parents with proper information, and that every activity shall be adequately supervised.

Student safety remains the first consideration in planning, preparing and engaging in any off-site activity.
